

AMENDMENTS TO THE SPECIFICATION

Please replace the two sequential paragraphs beginning at page 8, line 11, which starts with "As a result, when the detected..." with the following amended paragraph.

As a result, when the detected and file-analyzed identifying file-~~54~~ 45 is recognized as the identifying file 45 of the transmission origin, on the basis of the file storage folder structure 41, which has been preset by for the present information transmission system 1, the copy application software 62, provided in the PC 30, is automatically activated by the previously described monitoring resident software 61.

Specifically, when the digital still camera main body 11 is connected to the PC 30 on the basis of the USB connection between the digital still camera 11 and the PC 30 using the USB cable 51, all of ~~the~~ the root folder 42 and subfolders 43 included in the hierarchical folder structures ~~42 and 43, structure~~ saved in the memory card device 40, ~~and as well as~~ the file groups-45 46 and ~~46 in the folder structures~~ any subfolder 43, can be viewed on the PC 30.
